## Portfolio Connections

Three years ago, through the generosity of Jack Connors, chairman emeritus and founding partner of Boston's Hill Holliday advertising agency, the New England Province received a new visual identity with the theme "with you always." The question is often asked, "What is the value of branding?" The Province recently received this email from one of our colleagues illustrating the power of connections with the Jesuit brand.

"The notebook portfolio with 'Jesuits' embossed on the cover is fantastic and has already resulted in providing conversation openings at events. For example, I was at a luncheon meeting, standing in the foyer talking with several businesspeople. One noticed the 'Jesuit'

notebook and we struck up a conversation. Accolades for the Jesuits and two prospective donor meetings resulted. Another example: I was part of a wedding in Durango, Colorado last weekend and I used the notebook for my remarks, placing it on a chair after the ceremony. Several couples saw it and asked about my connection to the Jesuits. Turns out they all were Jesuit educated; they did not know about Jesuit Provinces and national/international work; and are considering making gifts. Grace, the simple brand of Jesuit is so powerful....as you know so well. Your gift of the Jesuit notebook will be used whenever I'm in public. Thank you! Thank you! JACK"
